

VOLVO C30

PRICE AND SPECIFICATION

Create your perfect Volvo C30

Congratulations. You're only a few steps away from your perfect Volvo C30. This price list contains everything you need to create the car that's exactly right for you.

From selecting the right package and choosing from a range of class leading engines, through to picking the perfect colour and adding the finishing touches, you're in complete control. You'll also find full engine details and in-depth technical specifications to help you make the most informed choice.

Whatever you decide, you'll be choosing a car that dares to be different. A dynamic, four-seater SportsCoupe, the Volvo C30 boasts dramatic and expressive exterior style coupled with an innovative interior.

C30 *R*DESIGN SPORT

The striking exterior lines are enhanced with 17" Serapis alloy wheels with full bodykit and logo on the grille. The unique interior design is complemented with embossed Leather/T-Tec upholstery, sports steering wheel and unique aluminium inlay.

C30 *R*DESIGN SE SPORT

This model combines the luxury features of the SE with the unique R-DESIGN interior details and the dramatic exterior sporty bodykit and 18" Atreus alloy wheels.

C30 S

The comprehensive standard specification includes ECC (Electronic Climate Control), 16" alloy wheels, DSTC (Dynamic Stability and Traction Control), power windows, a leather steering wheel and gear knob, a CD player and an Aux input for MP3 players.

C30 SE

The SE model brings added luxury. Kalix Textile/T-Tec upholstery, aluminium inlays, cruise control and steering wheel remote controls on the inside are complemented by the 17" Mestra alloy wheels and fog lights on the outside.

C30 SE LUX

The most luxurious version of the Volvo C30 offers leather upholstery, heated front seats and luxury floor mats, whilst 17" Spartacus alloy wheels, autofolding power door mirrors with ground lights and a headlamp cleaning system identify this model from the outside.

C30 *DRIVE*

DRIVE is a series of modifications, adjustments and enhancements designed to make it easy to reduce both your impact on the environment and your running costs. The Volvo C30 1.6D DRIVE produces only 115 g/km of CO₂ – which means 12 months' car tax of just £35. Its fuel consumption is up to 64.2 mpg*, and it comes with the choice of S, SE and SE Lux trim levels – so there's no compromise on style or luxury. See page 18 for more information.

DRIVE

DRIVE means making a change for the better without compromise. The exterior styling is unmistakably Volvo, with strong curves and sleek lines – yet DRIVE enhancements like the lowered chassis, Libra alloy wheels and rear spoiler add distinctive finishing touches. And these changes aren't just for show – they contribute to CO₂ emissions of just 115 g/km and fuel economy of up to 64.2 mpg*.

Better fuel consumption and emissions with all the style, luxury and technology you've come to expect – who said it wasn't easy to do the right thing?

- (i) For best performance and lowest fuel consumption 98 RON is recommended, 95 RON can be used for normal driving.
- (ii) The results do not express or imply any guarantee of the fuel consumption of a particular car.
- (iii) Official fuel consumption figures are obtained in accordance with Directive 93/116/EC as amended by 1999/100/EC. The figures are obtained under controlled test conditions and as such consumption achieved on the road will not necessarily accord with the official test results. Factors including driving styles and road, car and weather conditions will also have a bearing on actual fuel consumption achieved.
- (iv) CO₂ and fuel consumption is based on petrol operation.
- (v) Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 700 kg.
- (vi) Not possible to fit Accessory Towbar on 1.6D DRiVe due to fitment of rear deflector.

Notes

The weight of a vehicle will influence the level of CO₂ emitted. As a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO₂. Once a vehicle has been built it will be given its own specific CO₂ emission on which the Vehicle Excise Duty will be charged.

A weighbridge must be used to determine specific weights. Data valid for manual transmission unless specified.

All measurements in mm.

Gt = Geartronic Automatic Transmission.

P/shift = Powershift Automatic.

The Max. output figures are quoted in PS (Pferdestärke), which is the metric equivalent of brake horsepower.
