# THE VOLVO XC90

Welcome. You're about to take a closer look at the Volvo XC90 – Volvo's next generation SUV (Sports Utility Vehicle). One of the most revolutionary new cars in recent years, the XC90 has surpassed expectations of what an SUV can be. Outstanding passenger comfort for up to 7, excellent fuel consumption, advanced All Wheel Drive and stunning good looks all combine in this harmonious design.

## V8

The V8, 4.4 litre, 60° 'V' configuration delivers outstanding performance and grip producing 315 PS and 440 Nm of torque. This extremely advanced and compact V8 engine is one of the smoothest and cleanest engines of its type and offers effortless performance at any speed. Dual CVVT (Continuously Variable Valve Timing) on both intake and exhaust sides and counter-rotating balancer shafts give an excellent combination of power and refinement. Fuel consumption and CO<sub>2</sub> are also amongst the best for this class of engine.

## D5

The D5 2.4 litre, turbocharged, in-line, five cylinder, common rail diesel engine delivers very low fuel consumption and CO<sub>2</sub> emissions with excellent performance – producing 185 PS and 400 Nm torque. This third-generation electronic fuel injection engine is made entirely of aluminium – giving it a similar weight to a petrol engine. Add that to the variable blade turbocharger and you've got one of the cleanest and most advanced diesel engines on the market.

## AWD WITH INSTANT TRACTION™

The electronically controlled AWD (All Wheel Drive) system with Instant Traction™ automatically distributes drive between the front and rear wheels within a fraction of a second as conditions demand. This intelligent system optimises traction and stability in all conditions and aids fuel consumption.

## INTELLIGENT 7 SEAT SYSTEM

The XC90 features an innovative and safe 7 seat interior with 64 seating configurations. At first glance the luxurious interior offers a traditional 5 seat configuration – but hidden in the rear load floor are 2 additional seats. Each of the 6 passenger seats can be independently folded flat offering one of the most versatile interiors available. Each seat has the usual Volvo full complement of equipment. The middle 2nd row seat also features an integrated child booster cushion.

**Notes**

- (i) For best performance and lowest fuel consumption 98 RON is recommended. 95 RON can be used for normal driving.
- (ii) These results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model. Additionally driving style, traffic conditions, as well as the age, mileage and standard of maintenance will affect a car's fuel consumption.
- (iii) The Urban fuel consumption figure is based on typical city driving, including starting the car from cold. The Extra Urban figure is based on typical motorway driving and cruising. The Combined figure averages the consumption across both cycles.
- (iv) Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 750 kg.

The weight of the vehicle will influence the level of CO<sub>2</sub> emitted. As a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO<sub>2</sub>. Once a vehicle has been built it will be given its own specific CO<sub>2</sub> emission on which the Vehicle Excise Duty will be charged.

A weighbridge must be used to determine specific weights.

Data valid for manual transmission unless specified.

All measurements in mm.

The Max. output figures are quoted in PS (Pferdestärke), which is the metric equivalent of brake horsepower.

NB Some of the information in this price list may not be correct due to product changes which may have occurred since it was printed. Some of the equipment described or shown may now be available only at extra cost. Before ordering, please ask your Volvo dealer for the latest information.
