PERFORMANCE OR OUTSTANDING FUEL ECONOMY, YOUR WISH IS OUR COMMAND.

THE VOLVO S60

If you've been searching for a stylish, sporty machine then look no further - the Volvo S60 is the definitive sports saloon. Blessed with perfectly sculpted body work and a luxurious interior, it certainly looks the part. But it's under the bonnet where it really excels - take a look through this price list to find out about the S60's jaw dropping performance.

The T5 2.3 litre, turbocharged, in-line, 5 cylinder engine delivers outstanding performance - producing 250 bhp and 330 Nm torque. This extremely smooth engine features variable valve timing on the exhaust side and a responsive turbocharger designed to deliver maximum torque from low and medium engine speeds. Effortless performance is combined with excellent fuel consumption and CO2 emissions.

D5

The D5 2.4 litre, turbocharged, in-line, 5 cylinder, common rail diesel engine delivers very low fuel consumption and CO₂ emissions with excellent performance - producing 163 bhp and 340 Nm torque. This externely advanced diesel engine is made entirely of aluminium giving it a similar weight to a petrol engine. This advanced design combined with second generation electronic common rail fuel injection and the variable blade turbocharger makes it one of the quietest and most advanced diesel engines available on the market.

BI-FUEL

As part of Volvo's total commitment to the environment, the S60 Bi-Fuel engines enable you to benefit from the lower cost of LPG/CNG and reduce harmful emissions to the atmosphere.
