

VOLVO S40

The S40 range at a glance.

S40 ES

The comprehensive standard specification includes ECC (Electronic Climate Control), 16" alloy wheels, DSTC (Dynamic Stability and Traction Control), passenger airbag cut-off switch, power windows, information centre, a leather steering wheel and gear knob, floor mats, performance sound audio system with CD player and an Aux input for MP3 players.

S40 SE

The SE model brings added luxury. Textile/T-Tec upholstery, aluminium inlays, cruise control and steering wheel remote controls on the inside are complemented by 17" alloy wheels, autofolding power door mirrors with ground lights and fog lights on the outside.

S40 SE LUX

The most luxurious version of the Volvo S40 offers leather-faced upholstery, 17" Spartacus alloy wheels and active bending lights with headlight cleaning system.

S40 *R*DESIGN

The striking exterior lines are enhanced with 17" Cratus alloy wheels with full bodykit and logo on the grille. The unique interior design is complemented with embossed leather/T-Tec upholstery, sports steering wheel and unique aluminium inlay.

PREMIUM

The Premium model is the ultimate upgrade. The combination of leather-faced upholstery (leather/T-Tec on R-DESIGN), satellite navigation system and high performance audio system is designed to complement the existing high level of specification whichever model you choose.

S40 *DRIVE*

DRIVE is a series of modifications, adjustments and enhancements designed to make it easy to reduce both your impact on the environment and your running costs. All S40 DRIVE models come with Start/Stop technology to produce only 104 g/km CO₂ and fuel consumption up to 72.4 mpg*, which means £0 vehicle tax for the first year.

* Based on a combined cycle

Inside information.

Here you can learn more about the features and technology of your New Volvo S40. Some are standard, some are optional. For more detailed information, please contact your Volvo dealer or visit www.volvocars.co.uk

Dynamic Stability and Traction Control (DSTC)

By helping prevent fishtails, spinouts, and rollovers, stability control technology like DSTC has been described as one of the most vital safety advances of the past decade. At the core of DSTC, a gyroscope senses the car's direction and compares this with steering wheel movements as well as the actual rotation of the car's wheels. DSTC is able to detect a potential skid and help counteract this by reducing the engine's power output, or braking on one or more wheels.

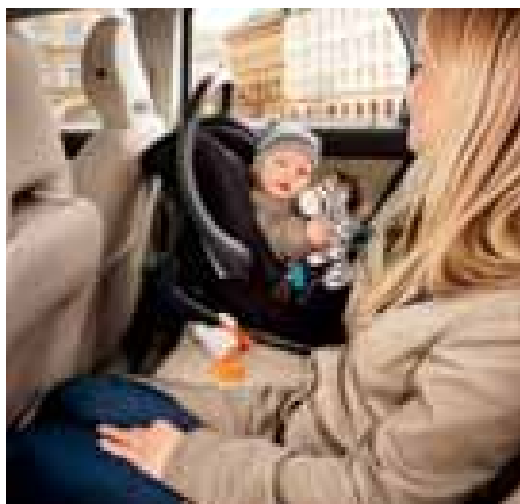

Whiplash Protection System (WHIPS)

Integrated in the front seats, Volvo's WHIPS cradles the occupant to help reduce the risk of whiplash injury (one of the most common types of traffic injury and often the result of a low-speed rear impact collision). The function is activated by a collision of sufficient force from behind. Independent research has shown that WHIPS is one of the most effective systems in the world and can reduce the risk of long-term injuries by 50%.

Side Impact Protection System (SIPS)

SIPS is a Volvo unique safety system that has been developed to help protect where occupants are most exposed to the crash forces. The steel framework of the car – including the front seats – is designed and reinforced to help displace the impact of a side collision away from the occupants to other parts of the car body and help prevent intrusion into the cabin. The side structure is extremely strong to help withstand a severe side impact – even with a larger vehicle. The Inflatable Curtains (IC) for all the outboard occupants and the front seat side airbags interact to help provide further protection.

ISOFIX

ISOFIX attachments only allow you to fit the child seat in the correct way. They also make the child seat easier to fit and remove. We offer two rear-facing child seats with ISOFIX attachments: one for infants and small children up to 13 kg, and one for children weighing between 9 and 18 kg.

Inflatable Curtains (IC)

The Inflatable Curtains (IC) protect the heads of both front and rear outboard occupants. They also stay inflated for some seconds to provide prolonged protection for subsequent impacts.

Dual-stage airbags, driver and front passenger

Dual-stage airbags adapt the level of inflation depending on the force of the collision. The driver's airbag also interacts with the deformation of the collapsible steering column. Side airbags in the front seats help reduce the risk of serious injuries in a side collision.

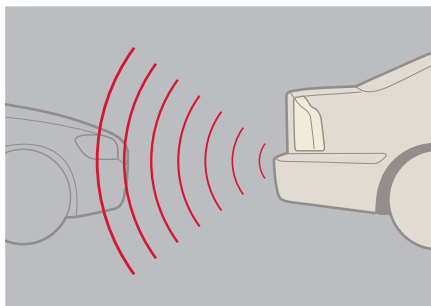

Satellite Navigation System

Volvo's GPS-based satellite navigation system is totally integrated with your car. It offers both voice guidance and graphic navigation all the way to your destination. Via TMC (Traffic Message Channel) radio data broadcasts, it also lets you know if there's weather related trouble en-route and recommends an alternative. This system is easily controlled from the steering wheel or a remote, and the screen is positioned so you can keep your attention on traffic. When not in use, the screen retracts into the dash. The maps are on one DVD and cover major parts of Europe. To help you keep track of new roads and points of interest, you can join our MapCare programme for two free map updates.

Keyless Drive

Keep the car key in your pocket or handbag. Using the keyless drive technology you can unlock the doors and drive away without using the car key. To start the engine, just turn the starter control in the instrument panel.

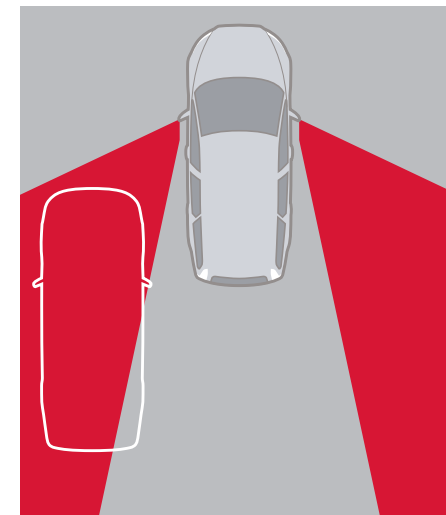

Park Assist

Activated when you engage reverse gear, rear park assist helps you when reversing into tight spaces. The audio system is turned down and a pulsating sound from the rear loudspeakers becomes a continuous tone as you approach an obstacle.

Autofolding Power Door Mirror with Ground Lights

At the touch of a button, these door mirrors can be folded flat against the car where they are less likely to get damaged after you've parked. They also fold or unfold automatically every time you lock or unlock the car. The integrated ground lighting is activated with the remote control. Beyond enhancing security to and from your car at night, this is also convenient when getting in and out.

Blind Spot Information System (BLIS)

BLIS uses rear-facing cameras installed in the door mirrors to keep a lookout on either side of the car. As a vehicle enters your blind spot, this function can alert you with a lamp built in to the front door post, left or right. Together with the door mirrors, this helps you assess the feasibility of a lane change. BLIS is activated once the car exceeds 6 mph, and reacts to almost any type of vehicle from a motorcycle upwards, day or night.

Active Bending Lights

In addition to improving illumination by about 230% using Dual Xenon light technology, the Active Bending Lights give a 90% boost to your vision round bends at night. Controlled by microprocessors, the motorised lights turn up to 15 degrees in either direction when driving – reliably lighting up your chosen path. A twilight sensor disengages the adaptive function during daylight to extend its life span.

Integrated Bluetooth® Handsfree System

Bluetooth® technology enables a mobile phone to be connected to the infotainment system in your Volvo, wirelessly. Once configured for a mobile phone, the system automatically recognises your phone as you enter the car. You then operate your phone using the buttons in the steering wheel. As you climb in and out of the car, the system automatically allows you to switch freely from the phone to the handsfree system and back again.

IMAGINE YOUR NEW INTERIOR. Crafted according to your requirements, the interior of your Volvo can take on any number of personalities. Choose between two interior colours, Off Black and Dark Umbra, and different upholstery variants. Pick the interior that suits you and add the finishing touch with the interior trim, steering wheel, gear knob and floor mat of your choice. After all, you're probably going to spend a lot of time here.

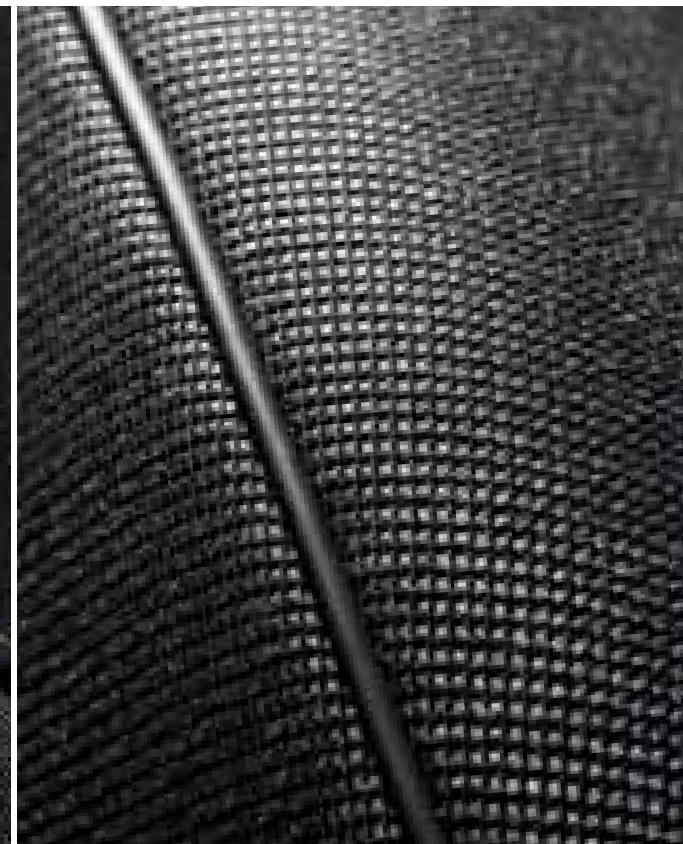

ERGONOMIC DESIGN Developed in co-operation with ergonomic specialists to provide generous support for the body during hours of driving, the seats in the Volvo S40 are among the most comfortable in the automotive world. Multiple adjustment possibilities and adjustable lumbar support make it easy to find the perfect driving position.

**Leather-faced**

This is the upholstery that affords the Volvo S40 an atmosphere of luxury. It's a new hide quality that's smooth, durable and has a fine grain pattern. Like all Volvo leather-faced upholsteries, it's organically tanned and ages beautifully.

**Dalarö T-Tec**

This contemporary textile upholstery trimmed with ultra-modern T-Tec, inspired by wetsuits and durable outdoor gear. The ribbed backrest and contrasting seams add further zest.

**Boda textile**

This textile upholstery with colour coordinated piping reflects the sporty yet relaxed elegance of the Volvo S40.

- (i) For best performance and lowest fuel consumption 98 RON is recommended, 95 RON can be used for normal driving.
- (ii) The results do not express or imply any guarantee of the fuel consumption of a particular car.
- (iii) Official fuel consumption figures are obtained in accordance with Directive 93/116/EC as amended by 1999/100/EC. The figures are obtained under controlled test conditions and as such consumption achieved on the road will not necessarily accord with the official test results. Factors including driving styles and road, car and weather conditions will also have a bearing on actual fuel consumption achieved.
- (iv) Unbraked towing weight must not exceed 50% of kerb weight up to a maximum of 700 kg.

Notes

The weight of a vehicle will influence the level of CO₂ emitted and, as a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO₂. However, Vehicle Excise Duty is charged according to the weight and CO₂ emissions of the standard vehicle, as published in this price list. The weight effect of any additional items does not affect the amount of Vehicle Excise Duty payable.

A weighbridge must be used to determine specific weights. Data valid for manual transmission unless specified.

All measurements in mm.

Auto = Geartronic Automatic Transmission.

The Max. output figures are quoted in PS (Pferdestärke), which is the metric equivalent of brake horsepower.
