RECHARGE PURE ELECTRIC

Price and Specification | Model Year 2022 | Edition 3

YOUR OWN RECHARGE PURE ELECTRIC IS IN REACH

We are recharging everything we do, from our cars to our factories and supply chain. Our ambition is to reduce our carbon footprint by 40% per car by 2025 compared to 2018. And to be climate neutral by 2040. Because we have only one planet.

We introduce Volvo Recharge – our new line of advanced electric cars, designed to give you a refined and more sustainable driving experience. The cars you trust to protect your family, now also help protect their future.

The XC40 Recharge doesn't force you to choose between power and responsible driving. Just take your seat, select a gear and enjoy the comfort of one pedal drive and the impressive strength of electric motors with zero tailpipe emissions.

With Google Maps fully integrated in the car and hands-free voice control enabled by Google Assistant, real-time traffic info and automatic rerouting let you reach your destination with less hassle.

Talk to Google in your XC40 Recharge for hands-free control. Through a familiar interface, you can enjoy entertainment and keep in touch with friends, family and colleagues – just by using your voice. With access to apps on Google Play, you, your car and your life have never been closer.

- ¹⁾ All models are type approved to WLTP (Worldwide harmonised Light-duty vehicles Test Procedure) standards. WLTP is the official test regime for passenger cars and the emission figures will be used to calculate the vehicle tax on vehicles first registered from 1st April 2021 and from 6th April 2021 for company car Benefit-In-Kind purposes. The exact CO₂ figures of the vehicle will vary according to any options and packs specified.
- ²⁾ P11D value for Benefit-In-Kind purposes is the retail price plus delivery charge. BIK % is shown for the 2021/22 tax year .
- ³⁾ All 'On The Road' prices quoted in this price list include Volvo standard national delivery charge, inclusive of number plates and VAT at £745 and vehicle tax as 1st April 2021 (as set by the government). This charge does not include any provision for fuel. The On The Road price also includes a £55 first registration fee (as set by the government – excludes Channel Islands and Isle of Man). Recommended retail prices quoted do not include these additions.
- ⁴⁾ Figures shown reflect standard vehicle without options. The Volvo car configurator can display the estimated CO₂ and vehicle range according to selected packs, options and wheels. Your retailer will be able to confirm the CO₂ and EAER values once the vehicle order has been confirmed by the factory for production.
