

THE NEW VOLVO XC60

We proudly introduce the new Volvo XC60.

Where people come together, there's energy. Energy to cross borders and challenge conventions. Energy to explore the beauty of contrasts. Energy to relax among friends. Make it happen in the new Volvo XC60 – the Swedish energizer, created with love and passion by Volvo.

Life is better lived together.
Volvo. for life

Designed to bring your worlds together.

Modern living calls for an appropriate outfit. All-road capable, sports-coupe sensational and technologically advanced, the new Volvo XC60 comes with new perspectives on urban traveling. Cutting-edge safety and Scandinavian design help you make the best of the roads – from here to what's beyond.

City Safety.

Probably the most important innovation for urban dwellers since take-away latte.

It can happen to anyone driving in slow city traffic. A milli-second lapse in concentration. The car in front slams on its brakes. Driving an ordinary car, you're most likely to run into the vehicle in front of you. Driving a Volvo XC60 equipped with City Safety could help prevent you from striking the car ahead. The laser-based technology continuously monitors the area in front of your XC60 and can brake automatically to help you avoid or mitigate a collision. City Safety comes standard on the new XC60 and is activated when you start the car. Good news for you, your passengers and – not least – anyone in the car in front of you.

Forward Sensing Module

Processes incoming signals from the front radar and digital camera to determine the car's position on the road and distance to other vehicles ahead.

Front radar

Registers distance and speed of a vehicle in front at speeds over 20 mph.

Laser Sensor

The City Safety laser sensor spots slower moving or stopped vehicles in front at speeds below 20 mph.

Digital camera

This camera helps the on-board intelligence to discern moving from stationary vehicles and register lane markings.

Blind spot sensors

These sensors help detect vehicles entering the blind spot.

So loaded with technology, it's almost human.

Take a closer look inside the new Volvo XC60. Here you'll find some impressive on-board intelligence (in addition to the driver's and passengers', of course). Employing powerful microprocessors together with laser, radar and digital camera technology, the optional Collision Avoidance Package can provide support when support is needed. Primarily designed for highway driving, the Collision Warning with Auto Brake can warn if you're too close to a vehicle ahead and even brake if necessary. If you're tired and begin to lose concentration, Volvo's Driver Alert System (included in the optional Collision Avoidance Package) can alert you via an audible warning and message that is displayed on the instrument panel. But most of the time you'll never notice these supportive technologies. The most intelligence-demanding part of driving will always be your absolute privilege.

Unleash your desire to drive.

A sporty coupe fused with a capable all-roader, the Volvo XC60 will charge any trip with enthusiasm and poise. No matter if you choose the boulevard, the highway, the back roads or any road in-between, this all-wheel drive Volvo crossover is ready to go.

All-wheel drive, high ground clearance and Hill Descent Control.

All you need for a swing through town.

In the Volvo XC60 you don't have to choose between exhilaration and stability. We linked the highly efficient engine to an intelligent all-wheel drive system that continuously ensures power goes to the wheels with the best traction. Volvo's stability enhancing systems interact with advanced chassis technology to help maximize driving confidence on all roads. And with the press of a button, Hill Descent Control can help you down the steepest grades.

Be connected.

The new Volvo XC60 will elevate you in many ways. Behind the wheel there's no doubt who's in command. Everything, from the multi-adjustable driver's seat to the slightly angled center console, is designed to empower you as the driver. Controls and instruments connect intuitively, and – when needed – there's on-board intelligence to support you.

How personal do you want to become with your car?

Do you prefer it to simply mind its own business and leave you alone? Or do you want it to guide you and even remind you to consider taking a break from driving? The Volvo XC60 can take on any personality you want. Just set your preferences using the intuitive on-board menu system. Then enjoy the ride. All navigation* and audio functions are conveniently operated from the steering wheel or the center console. Nothing complicated, just liberating simplicity.

* Optional

“Happiness shared is happiness doubled”

Swedish proverb

Effortlessly, this spacious five-seater will accommodate friends and gear. Everyone travels in comfortable seats, surrounded by thoughtful amenities and haute couture safety. So lean back and turn on the mighty Dynaudio™ Premium Sound surround sound system*. The only complaint you might hear is that you've reached your destination too soon.

* Optional

The image shows the interior of a Volvo XC60, focusing on the leather seats with white stitching. A window in the background shows a cityscape with buildings. A white text box is overlaid on the right side of the image.

Test drive the power tailgate*.

A highly versatile partner, the Volvo XC60 helps you deal with the challenges imposed by daily life. On the inside, there's clever storage and a spacious load compartment. To allow comfortable configurations of people and cargo, all passenger seats can be folded separately. The power tailgate can be opened using the remote control (very convenient when your hands are full). And to include small friends, integrated two-stage adjustable booster cushions and adaptive seatbelts will elevate children to new levels of comfort and safety.

* Included in the optional Convenience Package

A dark-colored SUV is shown from a side-rear perspective, driving on a road. The background features a dense city skyline with various skyscrapers under a clear blue sky. The car's wheels are blurred, suggesting motion.

Have you heard about the new hot spot?

Because you love music, we created some of the car world's most formidable audio systems – each designed to harmonize with the acoustics of the interior. Like the Dynaudio Premium Sound system*. With up to 910 W of uncluttered music via a digital class D amplifier, twelve high-end speakers by the Danish sound specialists Dynaudio™, this is the ultimate in true-to-life sound. Dolby® Pro Logic® II surround sound ensures an equally authentic sensory sensation in all seats. And of course, connecting your iPod® is not a problem. So who will you put on the guest list?

Dolby, Pro Logic, and the double-D symbol are registered trademarks of Dolby Laboratories.
iPod is a trademark of Apple Computer, Inc.

* Optional

DYNAUDIO
AUTHENTIC FIDELITY

Security is only a heartbeat away.

We know, leaving a vehicle such as the Volvo XC60 isn't always easy. But be assured there's enough theft protection technology to help deter most uninvited visits with sturdy door locks and a lockable floor compartment. And most important – the Volvo XC60 can help enhance your personal security on the way to and from your vehicle. For instance, Volvo's Personal Car Communicator* (PCC) is a handy device that can tell if you've locked the vehicle. It even features a heartbeat sensor that can warn you if there's an intruder inside your XC60.

* Included in the optional Convenience Package

Safety comes naturally.

It's in the genes – an uncompromising ambition to both protect and celebrate life. It's human nature. And it's what makes a Volvo a Volvo. For decades, we've created cars that both encourage people to enjoy life and offer protection in the event of an accident. In fact, thousands of people all over the world can say they're still alive because of a Volvo. This is not by coincidence. Our founders stated that safety is, and will always be, at the heart of what we do. As a result, Volvo is recognized the world over for our passion to provide the safest cars on the road.

The protective character of a Volvo also encompasses the world we share. As far back as 1972, Volvo was the first car manufacturer to acknowledge the environmental downside of cars. Since then, we've been committed to reducing the environmental impact of the cars we make and how we make them. Therefore, choosing a Volvo will never be something you do just for yourself. Not that you can't, but our cars will always consider the well-being of more than one. Even if those people happen to be outside your car or are part of future generations. It's just the way we are.

Innovations for life.

- In 1959, Nils Bohlin, a Volvo safety engineer, invented the three-point seat belt. So important is this invention that it is considered to be one of the most life-saving technical innovations in the history of mankind.
- In 1976, Volvo Cars was the first car manufacturer to introduce the three-way catalytic converter with an oxygen sensor for exhaust emission control. Today virtually all gasoline-powered cars are equipped with this ingenious component – just as indispensable for the environment as the three-point seat belt is for safety.

These are only two examples of Volvo's most important safety and environment innovations. You'll find a lot more on www.volvocars.com/corporation

"Cars are driven by people. Therefore, the guiding principle behind everything we make at Volvo is – and must remain – safety."

Assar Gabrielsson and Gustaf Larson, founders of Volvo

After 36,000 crashes, you begin to know what you're doing.

The best way to learn what really happens before, during and after a car crash, is to be there. Since 1970, Volvo's Accident Research Team has investigated accidents involving Volvo cars on Swedish roads. Today, our own statistical database contains over 36,000 accidents with more than 60,000 occupants.

Our accident researchers are stand-by 24/7. If there's an accident involving a newer Volvo car within 60 miles of Göteborg, our researchers are instantly alerted by the rescue team. In addition to studies on the scene of the accident, our researchers also investigate what happened before the crash to understand how to improve the driver's ability to avoid a collision.

Volvo Cars Safety Center – the world's most advanced crash laboratory

Based on the findings from our accident research, we can recreate a variety of real-life traffic situations and crashes. Beyond numerous virtual crash tests in super-computers, we perform around 450 crashes each year. We crash test car-to-car at different speeds and with other kinds of vehicles and road obstacles. We perform frontal impacts, rear impacts, side impacts and roll-over tests and test cars off-road as well as against genuine Swedish granite rock-face – we can even simulate impacts with wild animals.

If you make it here, you make it anywhere

Other car manufacturers come to Sweden for final car testing under harsh and capricious conditions. For us it's home. Our own proving ground Hällered with its 34 miles of test tracks includes different road types from all over the world. Here we scrutinize our cars' ability to support their drivers in all imaginable and unimaginable situations during thousands of test miles – not to mention the distances driven on ordinary Swedish roads.

Advanced technology to support the human factor.

After all, we're only human. That's why we build cars that help support you in different situations, with technology that expands the human senses and helps you to focus on driving. Still, technology will never take the responsibility away from you as the driver. Final decisions are always in your hands. But if these technologies help make you a more alert and relaxed driver, they will also contribute to the overall safety of those in and around your Volvo.

City Safety is standard on the Volvo XC60. At speeds up to 20 mph, this laser-based technology can automatically brake your car to help you avoid running into a slower or stationary vehicle in front of you or mitigate the effects of collision.

Collision Warning with Auto Brake* for highway driving is Volvo's radar and camera based technology that can warn you if you're too close to a vehicle ahead and if a collision can't be avoided, can activate the brakes to help reduce the effects of a crash.

Driver Alert Control (DAC)* is a unique technology designed for highway driving and can remind you if you're losing concentration.

Lane Departure Warning (LDW)* monitors your car's position on the road and helps alert you if you unintentionally are crossing a lane marker at speeds over 40 mph.

All-wheel drive with Instant Traction™ continuously distributes power to the wheels with the best traction for reassuring stability in a wide range of conditions.

Dynamic Stability and Traction Control (DSTC) helps you maintain traction in a wide range of situations and prevent the car from skidding.

Trailer Stability Assist (TSA) helps counteract snaking tendencies from a trailer when towing.

* Included in the optional Collision Avoidance Package

Roll Stability Control (RSC) senses an impending roll-over and brakes one or more of the wheels to help counter roll tendency and help restore the vehicle's balance.

Slim windshield pillars are smartly designed and made of ultra high-strength steel to both help provide crash protection and help improve your front lateral vision.

Blind Spot Information System (BLIS) helps to detect vehicles entering the blind spot on both sides of your car (optional).

Active Bi-Xenon® Lights (ABL) expand your vision range by about 230% when you're driving in the dark and improved illumination around curves (optional).

Emergency Brake Light (EBL) senses a panic brake maneuver and starts flashing the brake lights to warn the road users behind.

Hydraulic Brake Assist (HBA) ensures optimal braking power to help you stop the car in the shortest possible distance.

Ready Alert Brakes (RAB) anticipate an emergency braking to further help reduce the braking distance.

Intelligent Driver Information System (IDIS) can help reduce your workload in stressful situations.

Did you know that:

- a third of all reported accidents are rear impact – and in more than 50% of these accidents the driver doesn't brake at all.
- up to 90% of all traffic accidents are caused by driver distraction.
- gas discharge lamp technology (Bi-Xenon®) helps you gain 148 ft more for braking when driving in the dark.

Our engineers spent more than 80 years designing this car.

You're looking at one of the safest cars in the world. Not because this car displays the highest number of airbags in the industry (it probably doesn't), but because of how well the different safety technologies interact to help keep the occupants out of harm's way. What's more, what you see is the result of the collected efforts from generations of dedicated Volvo safety engineers. So if you share our passion for safety, this may be the most exciting image in the entire brochure.

In a frontal collision the patented frontal structure will yield to help absorb crash energy. The compact power train is designed to help optimize deformation. A steel cross-member under the dashboard further helps keep the cabin intact. Inside the vehicle, seat belts interact with the collapsible steering column and multi-stage airbags to help keep the occupants out of harm's way. Volvo also introduces innovative technology utilizing laser sensors. Continuously monitoring the area in front of the vehicle, these sensors collect pre-crash data to help optimize the restraint systems for the expected crash force. A lower cross member helps protect occupants in an oncoming car with lower positioned bumpers.

In a roll-over the Roll-Over Protection System (ROPS) activates the seat belt pre-tensioners at all seats to help keep occupants more securely restrained. The Inflatable Curtain (IC) deploys to help provide head protection and help keep the occupants inside the cabin. Additionally, the safety cage is reinforced to help keep the passenger compartment intact.

In a side impact Volvo's unique Side Impact Protection System (SIPS) helps protect the occupants. The extremely strong door and side structure is designed to help withstand a severe side impact – even with a larger vehicle. The dual-chamber side airbags in the front seats help protect the chest and hip, while the Inflatable Curtain (IC) adds head protection.

In a rear impact the rear deformation zones will help absorb crash energy. The fuel tank is designed to remain well protected in front of the rear axle. The head restraints help protect the neck and spine, and Volvo's unique Whiplash Protection System (WHIPS) cradles the front seat occupants in a controlled manner to help prevent whiplash injuries.

Maximize your experience. Not your footprint.

We believe it's more fun to drive a car that cares both for people and the environment – be it outside or inside the vehicle. Utilizing advanced engine technology and emission controls, Volvo engines are designed to combine high performance with low environmental impact. This caring attitude continues inside your Volvo. Here you and your passengers can experience one of the automotive industry's cleanest and healthiest cabin environments. And to help minimize its total environmental impact, the new Volvo XC60 already complies with coming stringent European recycling directives. It's as enjoyable as it's responsible. Just as you would expect of a Volvo.

Emission controls

All Volvo engines comply with stringent international environmental requirements. Advanced emission control eliminates between 95 and 99% of carbon monoxide, hydrocarbons and nitrogen oxides from engine exhaust gases. The catalytic converter is positioned to provide optimum exhaust conversion sooner after cold starting.

Low emission interior

To ensure that you and your passengers are not exposed to harmful emissions or unpleasant odours, we test individual upholstery and interior trim items as well as complete interiors in the Volvo Environmental Laboratory in Sweden. All upholstery materials and interior textiles also comply with Oeko-Tex Standard 100 – an international benchmark for human ecological safety of textiles. All leathers are tanned by a process that only uses vegetable or synthetic substances instead of chromium. In addition, several interior details made of metal are tested for contact allergies – they even meet the same nickel leakage requirements as jewellery.

Clean cabin air

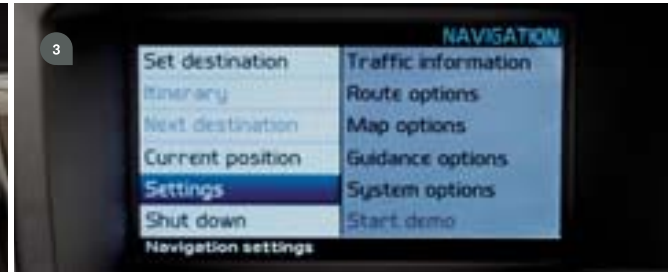

A cabin air filter removes dust, pollen and other particles from the incoming air. Volvo's Interior Air Quality System (IAQS)* continuously monitors incoming air and can shut out carbon monoxide, ground-level ozone and nitrogen dioxide. This helps to ensure that the air you breathe in the car is cleaner than that outside when driving in heavy city traffic and tunnels.

* Included in the optional Convenience Package

DRIVE 

Factory-installed options.

The sense of quality and care – and knowing that you get the Volvo that suits your lifestyle. Customize your car with the options that best meet your demands and desires, and you'll soon be behind the wheel of your individually tailored Volvo XC60.

1
Two-stage integrated booster cushions (33-80 lbs)
 These integrated booster cushions help ensure that children sit comfortably and safely. They position children at the correct height for the safety belt adjust to two heights to accommodate children of different sizes, so smaller children can be seated higher to enjoy a more comfortable ride. And as the children grow, seat height can be adjusted accordingly. This optimizes safety belt geometry, and will – together with the built-in progressive safety belt load limiter – help reduce the strain on the child's neck and chest in an impact. The booster cushions conveniently fold up from the outboard rear seats and are easily folded into the rear seat cushion when they're not needed.

2
Active Bi-Xenon® Lights (ABL)
 Compared to conventional halogen headlamps, Active Bi-Xenon® headlamps expand your vision range by about 230%. This means you'll be helped to gain 148 ft more for braking. And using motorized lamps that turn up to 15° in either direction, this technology gives a 90% boost to your vision round bends at night. You can enjoy highly effective low beam illumination on narrow, winding roads and extremely powerful full beams on the motorway. A daylight sensor disengages the adaptive function during daytime to extend its lifespan. Independent of the load, these headlamps self-adjust to maintain the correct angle to the road – even during hard acceleration or braking.

Bi-Xenon is a registered trademark of Hella KGaA Hueck & Co.

3
Volvo Navigation System (VNS) with RTT (Real Time Traffic)*
 Volvo's GPS-based VNS navigation system is totally integrated with your car. It offers both voice guidance and graphic navigation all the way to your destination. Via TMC (Traffic Message Channel) radio data broadcasts VNS also lets you know if there's weather-related trouble on route and recommends an alternative. The VNS system is easily controlled from the steering wheel or a remote, and the screen is positioned so you can keep your attention on traffic.

*Maps do not cover all areas or all routes within an area. Also constant expansion and rebuilding of the road network mean that the digital map database is not always the latest road information. Always follow relevant regulations and road information.

* Optional

4
Adaptive Cruise Control (ACC) with Distance Alert*
 ACC is designed for smooth traffic flow and can be activated at speeds over 18 mph. Just select the desired speed and the minimum time gap to the vehicle in front. When the radar sensor detects a slower vehicle in front, the speed automatically adapts to that vehicle. If ACC is disengaged and a vehicle in front comes to close, Distance Alert activates a red warning light in the lower section of the windscreen to help you keep a proper distance.

* Included in optional Collision Avoidance Package

5
Personal Car Communicator (PCC)*
 PCC is an advanced remote control that combines keyless drive with two-way communication with your Volvo. Keep the PCC with you and the car unlocks automatically on your arrival. Start the engine by pressing a button on the dash, lock the car by pressing a button in the door handle. Later in the day, if you're wondering whether you've locked the car, PCC can remind you; no matter where you are. On your return to the car – within a radius of 195 to 330 ft – pressing the PCC information button will give you a current report on its status. If the alarm has been activated, the onboard heartbeat sensor will give you advanced warning if there's somebody in your car and an opportunity to evaluate the situation safely.

* Included in optional Convenience Package

6
Blind Spot Information System (BLIS)*
 BLIS is designed to help the driver keep a lookout on either side of the car. As a vehicle enters your blind spot, this function can alert you with a lamp built in to the front door post – left or right. Together with the door mirrors, BLIS helps you assess the feasibility of a lane change. BLIS is activated once the car exceeds 6 mph, and reacts to almost any type of vehicle from a motorcycle upwards, day or night.

* Optional

Accessories.

Volvo's accessories help you make your Volvo XC60 even more suited to your personal needs. They are the only ones that have been tested to meet Volvo's exacting safety, quality and environmental requirements. You can also rest assured they're a perfect match to the technology and design of your Volvo.

Packages.

CLIMATE PACKAGE

In a Volvo you're always prepared to deal with the ever-changing forces of nature. And to increase comfort when driving in cold, rain or snow – simply add the Climate Package.

- Heated front seats
- Heated rear seats
- Heated windshield washer nozzles
- Headlight washers
- Rain sensor

CONVENIENCE PACKAGE

The wide range of considerate and practical features makes life with your Volvo a truly enjoyable experience. And by adding the Convenience Package, you expand your freedom even more.

- Homelink
- Grocery bag holder, cargo area
- Holder for sunglasses
- Humidity sensor for ECC System
- IAQS (Interior Air Quality System)
- Park assist, front and rear
- Power operated tailgate
- 12 volt outlet, cargo area
- PCC (Personal Car Communicator)

COLLISION AVOIDANCE PACKAGE

This package of Collision Avoidance Driver Support systems is designed to help assist a driver in avoiding potential accidents caused by driver distraction. This unique package offers five support systems.

- Adaptive Cruise Control
- Collision Warning with Auto Brake
- Distance Alert
- Driver Alert Control
- Lane Departure Warning

DYNAUDIO PREMIUM SOUND SYSTEM

This is our top-of-the line audio system designed for dynamic clarity with the entire sound spectrum. This system features twelve speakers by Danish sound specialist Dynaudio. In addition, Dolby® Pro Logic® II Surround helps tailor a well-balanced audio experience for each occupant.

- 5x130 W digital class D amplifier
- Dolby® Pro Logic® II Surround
- 12 Premium Sound speakers by Dynaudio
- MP3 and WMA compatible CD player
- AUX input
- USB input
- Headphone outlets, rear seat

The new Volvo XC60 specifications.

ENGINE

T6AWD Turbocharged, 3.0 liter six-cylinder in-line all-aluminum engine (281hp)

Twin-scroll turbo delivers immediate response at all revs – max torque of 295 ft./lbs. is available already from 1,500 r/min. This engine's compact design aids safety performance in a frontal collision. The latest generation of fast response emission control technology ensures that the engine complies with stringent environmental standards such as California's ULEV II.

Volvo XC60 T6 AWD

Engine type: 3.0 liter in-line six-cylinder engine with Twin-scroll turbo
 Max power output: 281 hp at 5600 rpm
 Max torque: 295 ft/lbs at 1500 rpm
 Acceleration: N/A
 Top speed: N/A
 Fuel consumption: N/A
 Environmental classification: ULEV II
 Transmission: Six-speed Geartronic Automatic

DRIVELINE

Six-speed Geartronic automatic transmission

For the best of two worlds, there's the six-speed Geartronic – a responsive automatic that's ideal for relaxed driving, tough conditions or towing. This also allows manual gear shifting so you can maintain a lower gear to bring up the revs or for the added assistance of engine braking. A special winter setting makes it easier to move off and maintain grip on slippery surfaces. This automatic also feature a sports mode for more active driving.

All wheel drive with Instant Traction™

The advanced Haldex AWD technology with Instant Traction™ helps increase driving stability and traction on all road surfaces. It has an electronic management system that constantly monitors the speed of the wheels, the throttle, engine torque, engine speed and the brakes. As driving conditions change, wheels with the best grip get the most power. When a tire loses traction, power is reduced to that wheel and instantly transferred to the more sure-footed wheels.

Hill Descent Control

Hill Descent Control offers a smooth and controlled hill descent on steep, rough roads. Simply push the Hill Descent Control button and the vehicle will descend using the brake system to control each wheel's speed, so that you can concentrate fully on steering. Hill Descent Control also makes it easier to move off when towing a heavy trailer.

CHASSIS

The chassis is optimized for sporty and well-balanced handling with a high level of comfort. For you as driver, advanced multi-link rear and McPherson spring strut front suspension mounted on a rigid body with a low center of gravity translate into a feeling of being in command and in safe control. Generous ground clearance and short overhangs contribute to driveability on rough roads and even off-road.

STEERING

Speed dependent steering

Speed dependent power steering uses sophisticated, speed-sensitive technology to regulate the amount of power assistance a driver needs. At high-way speeds, steering is firmer and more immediate. When parking or in slow traffic, steering is light and effortless.

Fuel tank

18.5 US Gallons (70 liters)

Meet the family.

C

Volvo C30 The compact and charismatic SportsCoupe.

Volvo C70 A convertible when you want it.

Volvo C70 A coupe when you need it to be.

To live life is to care about it.

Every moment in a Volvo is a moment designed to celebrate life. A life full of twists and turns, ups and downs; the little things as well as the big ones. Of course, to live life to its fullest isn't just about you; caring for others is important as well.

For more than eighty years we have helped save lives on roads around the world. Nevertheless, when it comes to improving automotive safety, we will never be satisfied. And while we're seeking new solutions, our existing safety systems are preventing many accidents from happening and providing some real protection when they do.

Our passion for life means looking after our children's children, too. Which is why we try to balance the needs of our company with those of society. With this bigger picture in mind, we develop engines and technology that have less impact on mother earth. This approach also explains why we pay so much attention to your immediate environment – in the car. Simply put, we care about you – and the whole circle of life.

Taking care of your ownership needs.

It's a simple idea; one point of contact for all your car ownership needs, whether it's finding the right financing or who to contact in an emergency. Get the most out of owning your Volvo.

Volvo Car Finance North America

If you purchase or lease your Volvo through Volvo Car Finance North America, you can take advantage of services designed to make financing simple and convenient. Quick Debit, for instance, enables you to have your monthly payment automatically debited from a designated bank account. For more information, call 1-800-770-8234 or visit www.volvofinance.com

On Call roadside assistance

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or maps and routing information for your next trip, refer to your On Call Card and dial 1-800-63-VOLVO – anytime, day or night. Your complimentary four-year membership activates the moment you become a Volvo owner.

Volvo new car warranty

Your new car warranty provides comprehensive coverage for four years or 50,000 miles, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, emission systems, genuine Volvo replacement parts and genuine Volvo accessories. Should you encounter any problem with your Volvo, simply contact the nearest retailer for assistance. Where your warranty ends, Volvo Increased Protection (VIP) plans begin. To purchase the additional protection of a VIP plan, contact your local retailer.

Volvo genuine service

The best way to ensure superior performance year after year is to bring your Volvo to your authorized retailer for regular maintenance. Our service advisors and factory-trained technicians are uniquely qualified to maintain your automobile. With the aid of advanced Volvo diagnostics, they follow all prescribed factory maintenance outlined in your service interval manual. Genuine Volvo Service is our ongoing commitment to you: to keep your Volvo performing smoothly long after other cars have given up.

Complimentary Factory Scheduled Maintenance

Volvo is committed to a premium ownership experience for its customers. To further enhance your ownership experience, all XC60 Volvo's sold new through Volvo retailers in the United States will include Complimentary Factory Scheduled Maintenance. This program provides scheduled maintenance coverage for the first 3 years or 36,000 miles, is designed to compliment your Volvo warranty, and will help ensure trouble free operation of your Volvo. Coverage includes factory recommended maintenance including oil and filter changes, checks and adjustments as listed in your Warranty and Maintenance Records Information booklet, for the first four maintenance services at intervals of 7,500, 15,000, 22,500 and 30,000 miles.

Service must be performed within 1,500 miles before or after each scheduled interval. Coverage is limited to scheduled maintenance items listed in the XC60 Warranty and Maintenance Records Information booklet. Normal wear items such as brake pads and wiper blades are not covered under the Complimentary Factory Scheduled Maintenance. An authorized retailer must perform maintenance. Offer is transferable.

Optional Factory Scheduled Maintenance program upgrades are also available that will allow you to customize coverage to meet your driving needs. See your Volvo retailer for details.
