- (i) Liquefied Petroleum Gas.
- (ii) Compressed Natural Gas.
- (iii) These results do not express or imply any guarantee of the fuel consumption of a particular car as there are inevitable differences between individual cars of the same model. Additionally driving style, traffic conditions, as well as the age and mileage and standard of maintenance will affect a car's fuel consumption.
- (iv) The Urban fuel consumption figure is based on typical city driving, including starting the car from cold. The Extra Urban figure is based on typical motorway driving and cruising. The Combined figure averages the consumption across both cycles.
- (v) For best performance and lowest fuel consumption 98 RON is recommended. 95 RON can be used for normal driving.

The weight of the vehicle will influence the level of CO<sub>2</sub> emitted. As a result, vehicles with higher levels of specification and factory fit options may emit higher levels of CO<sub>2</sub>. Once a vehicle has been built it will be given its own specific CO<sub>2</sub> emission on which the Vehicle Excise Duty will be charged.  
A weighbridge must be used to determine specific weights.

**WARRANTY**

Every new Volvo comes with comprehensive protection. Our warranty covers the first three years or 60,000 miles, whichever comes first. There's a three year unlimited warranty on the paintwork, and a full eight years against rust perforation. If a component fails due to a defect or material fault, your dealer will swiftly rectify the problem, free of charge.

All 'On The Road' prices quoted in this price list include Volvo standard national delivery charge, inclusive of number plates, at £480 and the VED (Vehicle Excise Duty) car tax effective from 1st March 2000. The 'On The Road' price also includes a £38 vehicle first registration fee (as set by the government), effective since 1st April 1998 (excludes Channel Islands and Isle of Man). Retail prices quoted do not include these additions.
