Petrol engines

Five cylinders. Double overhead camshafts, 20 valves. Continuously variable valve timing (CVVT) on the inlet side (engines without turbo), exhaust side (engines with turbo) or both the inlet and exhaust sides (Volvo V70 AWD 2.5T). Three-way catalytic converter with Lambda sensor. Electronic engine management. Petrol engines with turbo (high-pressure or light-pressure) also with charge-air cooler (Intercooler).

Diesel engines

All-aluminium direct-injection common rail turbodiesel with five cylinders. Double overhead camshafts, 20 valves. Variable turbocharger. Charge-air cooler (Intercooler). Two-way catalytic converter with EGR. Electronic engine management.

Bi-Fuel engines

Five-cylinder Bi-Fuel engine which runs on gas (methane or LPG) with petrol as the reserve fuel. Double overhead camshafts, 20 valves. Continuously variable valve timing (CVVT) on the inlet side. Three-way catalytic converter with Lambda sensor. Electronic engine management.

Driveline

Front-wheel drive (Volvo V70 AWD with an electronically-controlled all-wheel drive system). Transverse engine. Five-speed all-synchromesh manual gearbox. As an alternative there is a five-speed electronically controlled automatic transmission with adaptive shifting pattern, winter mode and a lock-up function that reduces fuel consumption when cruising. The 210-bhp and 250-bhp turbo engines are also available with five-speed Geartronic adaptive automatic, which allows manual shifts. Geartronic is standard in the Volvo V70 AWD D5.

Steering gear

Power-assisted rack and pinion steering gear. Steplessly adjustable steering wheel, vertically and horizontally. 2.8-3.0 turns between end stops (depending on tyres). Turning circle 10.9-11.9 m (depending on tyres).

Brakes

Power-assisted anti-lock disc brakes (ABS), ventilated discs at front. Electronic brake distribution between front and rear brakes (EBD). Diagonal-split braking system. Emergency Brake Assistance (EBA) in combination with DSTC.

Chassis

Front suspension with spring struts. Anti-dive and anti-lift function. Multi-link independent rear suspension with aluminium subframe. Anti-roll bars front and rear.

Options: Volvo's anti-spin system (STC). Volvo's anti-skid system (DSTC). Sports chassis with stiffer shock absorbers (standard with the turbocharged petrol engines). Automatic levelling. All-wheel drive (available with the 210-bhp turbo petrol engine and the 163-bhp turbodiesel).
