Re: Tropical radiator for PV 544, 444-445

Under extremely hot conditions when over-heating persists even with the four-bladed fan outlined in our Service Bulletin Group 276 No. 3, a special tropical radiator is available for the PV 544, 444 and 445.

This radiator has part no. 252052 and can be ordered from our Spare Parts Department.
