EXHAUST SYSTEM

P 445  
P 544  
P 1200

## New and improved arrangement of exhaust system

We have recently improved the exhaust system for the above vehicles.

On the P 544 the silencer has been divided into two almost similar parts in front of and behind the rear axle with effect from chassis no. 226238. The front part is made in one piece complete with the front portion of the exhaust pipe.

At the same time, the front portion of the exhaust pipe has been given a larger diameter and greater material thickness with a longer life as a result.

The larger pipes have been fitted with effect from chassis nos.

P 4450	no. 30765
P 5440	" 240072
P 1200	" 27851

For ordering the necessary parts for the respective vehicles see "Spare Parts Information" group 3 no. 8.
